

This is a drawing of Dick's Folly, the boat owned by the South West Herts Narrowboat Project, but without the traditional colours of green, yellow and red. Decorate this boat in the colours and designs that you have seen on your boat trip and you like best. Think of a name for it when you have coloured it. If you send it to the webmaster @ swherts Narrowboat.org.uk, he will add it to the Project's website so all your friends and family can see your work.
