

This is a list of the birds on our Wildlife Observation Facts Sheet. You may spot others, and these can be added on the back of the sheet. Just mark each bird you observe in the table below, using the lock numbers to locate the section of canal where the birds were seen [your leaders can tell you, with the help of the canal guide on board]. You can work on your own, with a friend or in a group. When the trip is over, please pass this sheet to your group leader who will hand them over with the boat keys. The webmaster will collate the information and add it to the list on the website. Thank you for taking part.

	Locks 72 - 73	Locks 73 - 74	Locks 74 - 75	Locks 75 - 76	Locks 76 - 77	Locks 77 - 78	Locks 78 - 79	Locks 79 - 80	Locks 80 - 81
